Current National Federation of State High School Association rules will apply with modifications or exceptions as indicated in this document.

**Equipment**
Racquets and tennis balls may be checked out from the Carmichael Gym equipment room with a valid NC State ID Card.

**Check In**
Players should check in with the Intramural Sports Scorekeeper or Supervisor. Participants must show their NC State Wolfpack One card to be allowed to play.

**The Game**
Each match consists of the 10 game pro sets with no add scoring and win by 2 games.

**Scoring**
No add tennis will be played throughout the tournament. In no add tennis, the first player to score four points wins the game. If any game reaches 3 points apiece (deuce), the receiver indicates which court the serve will be played. The nine-point tiebreaker will be used if the score of any set reaches six games each.

**Tie Breaker Procedure**
The player next to serve will serve points one and two from the right and left courts respectively. Your opponent serves points three and four from the right and left courts. Players then change ends and the original server serves points five and six (if necessary). Your opponent will then serve points seven (from the right), eight (from the left) and nine (from a side you designate).
